Projects

- **Tour Guide App**

A web app, along with API, made with Django web framework, HTML, CSS, jQuery and Postgresql database. This app allows users to search for their hotels/residences according to their preferred location, time and room quality and book those. Any user can advertise their hotels/ residences and allow those to be booked. I implemented user profiles, authentication, and searching algorithms in this app. [Project Link](#)

- **Live Chat**

It is an application for chatting with individuals and groups. It is made with MongoDB, Express.js & React.js. [Project Link](#)

- **Amazon Clone**

It is a clone of amazon.com made with React.js. [Project Link](#)

Certifications & Honors

- **SQL (Advanced)**

HackerRank - [f3b03516b539](#), August 2023

- **Problem-Solving (Intermediate)**

HackerRank - [e6f43492aa83](#), August 2023

Skills

- **Problem Solving** - Solved 2000+ programming problems on data structure, algorithms, mathematics & SQL and reached Expert level on codeforces. Profiles - [Codeforces](#), [Leetcode](#), [HackerRank](#), [Github](#).
- **Language** - Python, C++, C#, Java, Javascript.

- **MERN** - I have 1+ years of experience in MongoDB, Express.js, React.js & Node.js while building some cool websites.
- **Django** - I have 1+ year experience in django web framework while building a website for hotel booking.
